

### **Corne Van Eck DPT, OCS, COMT, FAAOMPT**

Corne is a Certified Orthopaedic Manual Therapist, Board Certified Orthopaedic Clinical Specialist, and Fellow of the American Academy of Orthopedic Manual Physical Therapists. Corne obtained her B.S. in International Relations ('92), followed by a B.S. in Physiotherapy ('96) from the University of Pretoria in South Africa, and her DPT ('06) from the Ola Grimsby Institute, where she also completed the residency program in Orthopedic Manual Therapy. Dr. Van Eck has over 15 years of clinical experience and has published several articles in the *South African Journal of Physiotherapy* on whiplash and back care. She has presented at multiple professional meetings on several topics including, Clinical Reasoning, the Lumbar and Cervical Spine, and Lymphedema Management. Corne has authored many post professional education courses on the hip and shoulder joints, back care, the cervical spine, the lumbar spine, as well as upper and lower extremities. Corne has studied under many manual therapy experts including Brian Mulligan and David Butler, among others. Currently, Dr. Van Eck owns and operates her own PT practice in South Africa, holds PT licenses in Tennessee and Arkansas and has a special interest in Lymphedema. Corne's extensive overseas experience brings a very global approach to her students.
